PORTFOLIOS

- https://github.com/anushajampula

PROFESSIONAL SUMMARY

Enthusiastic learner with hands-on experience in AWS cloud technologies through practical projects. Interested in understanding cloud infrastructure, backend systems, and deployment workflows, complementing my work in software testing.

PROJECTS

Cloud Resume Challenge:
Project Demo live link:
https://anusha-cloud-resume.com/
GitHub Repo: https://github.com/anushajampula/awscloud-resume

- Designed and deployed a highly available serverless website using AWS services (S3, CloudFront, Lambda, API Gateway, DynamoDB and Route 53, IAM).
- Automated infrastructure deployments using Terraform and GitHub Actions.
- Implemented HTTPS security and domain management via Route 53 and ACM.
